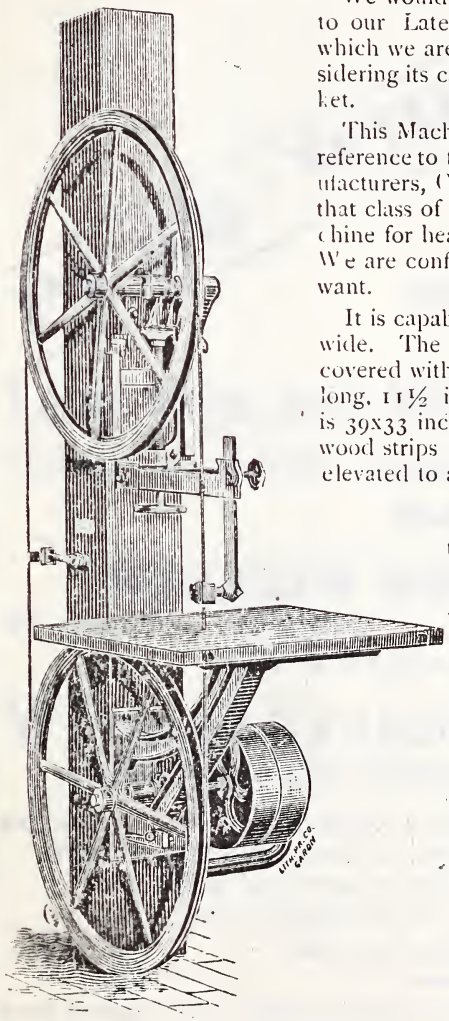
"THE WOODWORKER'S FAVORITE."

BAND SAWING MACHINE,

WITH THE LATEST IMPROVEMENTS,

AT A GREATLY REDUCED PRICE.



We would call the attention of our customers to our Latest Improved Band Sawing Machine, which we are selling at a much less price, (considering its capacity,) than any other in the market.

This Machine has been constructed with special reference to the wants of Wheel and Carriage Manufacturers, Chair Manufacturers, Car Shops, and that class of customers who want a powerful machine for heavy, hard-wood sawing, at a low price. We are confident that this Machine will meet that want.

It is capable of carrying saws from ¼ to 2 inches wide. The Saw Pulleys are 42 inches diameter; covered with leather. The Post is of wood, 10 ft. long, 11½ inches square, glued up. The table is 39x33 inches, 1½ inches thick, made of hard-wood strips 1⅛ inch wide, glued up, and can be elevated to an angle of 27 degrees.

The saw supports are made square to prevent turning.

Brazing and filing tools furnished without extra charge.

The tight and loose Pulleys are 16 inches diameter, 4 inches face, and should make 400 revolutions per minute.

They are well adapted to all kinds of Scroll Sawing. These Machines are capable of doing as much work, of as good quality, as machines costing twice the money.

Nine hundred and thirty-five of these machines are in use, and reference can be made to those who have tried them. WEIGHT, 900 lbs.

—ALSO MANUFACTURERS OF—

CIRCULAR SAW MILLS.

W. E. NICHOLS & CO.,

BALDWINVILLE, - - MASS.

The MILLERS River district [Mass.] directory, of Athol, Orange, Royalston, Wendell, Templeton, Erving, containing a general directory, of the citiznes and business firms of the district. Also, the county register of Worcester and Franklin counties, and town officers, churches, schools, societies and other matter of local and general interest. Fitchburg, Adams & Caswell, 1883-

v. 24cm.

ICN 60-1021

PREFACE.

In presenting this book to the public, the publishers desire to state that no Directory containing in one book all the towns comprised herein has ever been published, there being a distinct Citizens' Directory, with the residence and occupation of the inhabitants, together with a Business Directory, of six different towns, also a County Register of Worcester and Franklin Counties.

This work, considering the fact that all of the material therefor was compiled from manuscript, has been issued at as early a date as accuracy would permit; and a careful inspection of it, and an estimate made of the amount of time and labor to complete it, must satisfy our patrons that we have labored faithfully to present a work satisfactory to the citizens of the whole district, and one in which all can take pride.

Of course there have been changes, both in the residences of some of the inabitants and business firms, since the canvassing was commenced; these are unavoidable, but we have spared no pains or expense to have it correct in every detail.

We are indebted to many friends in the various towns for kind advice and assistance, and to our numerous patrons for our generous support; to all of whom we return our sincere thanks.

CHAS. T. ADAMS.
L. B. CASWELL.

The New York Trade Bureau takes the lead of all Furniture Journals. Its circulation is over 8000.

ADVERTISING DEPARTMENT.

THE ATHOL TRANSCRIPT.

The favorite local Family Journal. An eight page, 48 column paper, containing, each issue, about 30 columns of choice, well-selected, wholesome reading. All the news from Athol and surrounding towns done up every week in a crisp, entertaining style. Stories, sketches, poetry, agricultural information, brief, pointed editorials, and an abundance of general miscellaneous reading furnished every week.

Says the Springfield Republican: "The Athol Transcript is one of the best of the model Western Massachusetts weekly papers. It is suited with intelligent tact and real newspaper ability. Athol shows her good sense in appreciating so excellent a home institution."

The Boston Herald says, (March 24, 1882): "The Athol Transcript is one of the ablest organs of public opinion to be found in the rural press of Massachusetts."

We could fill several pages like this with similar testimonials.

Reaching all classes of people, and read by all, the Transcript *has no superior as an advertising medium.*

Terms: One year, $1.50; 6 mos., 75c.; 3 mos., 50c,

ALWAYS IN ADVANCE.

The Transcript Hydraulic Power Printing Office.

The Fitchburg Carbonized Stone and Pipe Company are now manufacturing a superior article of

DRAIN & SEWER PIPE,

Hardened by Richardson's Patent Process of Carbonization, which gives the pipe great strength and durability. They also manufacture a handsome style of

PAVING BLOCKS FOR WALKS,

DOOR STEPS, CARRIAGE BLOCKS,

DIMENSION STONE & POSTS FOR CEMETERY WORK & VASES.

The works of the Company are located on North Street, just in the rear of E. M. Dickinson & Co's shoe manufactory.

Those in want of any of the above articles are invited to call and examine for themselves. We shall endeavor to give satisfaction, both as to price and quality.

This Carbonized Pipe has been extensively used in different sections of the country, and may be considered as thoroughly tested.

A. B. PECK, Supt.

WORKS, NORTH ST., NEAR MAIN,

IRA RUSSELL, M. D.,
GEO. JEWETT, M. D.,
J. P. LYNDE, M. D.,
FRED W. RUSSELL, M. D.,
} Consulting Physicians.

THESE COTTAGES are established for the treatment of the more chronic cases of disease among children, where medical care and careful nursing may be supplemented by the advantages of fresh air, sunlight, out door exercise, and wholesome food which country life more abundantly affords.

The really poor will be cared for free, as funds may be contributed for this purpose, but a moderate charge will be made to those able to pay.

Separate accommodations are also here provided for the care and treatment of a limited number of children suffering from Epilepsy; heretofore, this unfortunate class has been almost entirely unprovided for, and it is now designed to furnish, for a moderate price, the peculiar care and treatment which these cases so much require. Careful nurses will devote themselves entirely to the limited number under their separate charge, and each child will be under the constant supervision of a competent attendant, who will spare no pains to secure the best physical, mental and moral results.

For further information, address L. W. BAKER, M. D., Physician-in-charge.

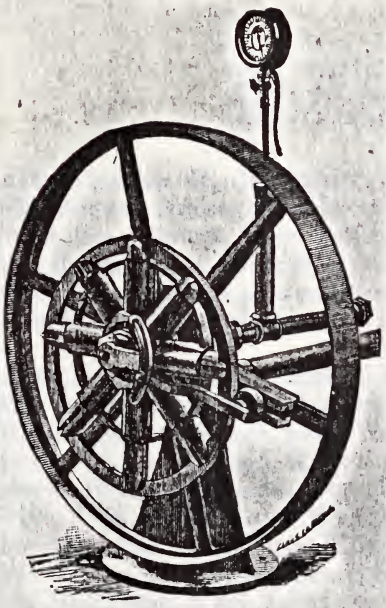
Fire Insurance Company

THE "AMHERST MOTOR."

POWER GIVEN,

FROM 1-16 to 5 HORSE POWER.



THE uses to which the "AMHERST MOTOR" can be applied wherever there is aqueduct pressure, are very numerous, such as elevators, electric lights, sewing, knitting, washing, meat-cutting, horse-clipping, and all kinds of laundry machines, printing presses, dental engines, jig saws, lathes, coffee and drug mills, telephone generators, grindstones, fan-blowers, ventilating fans, ice cream freezers, house and church organs, &c. &c.

This Motor is a marvel of ingenuity, its operation being perfect, and is perhaps the best illustration had of late years of the perfect application of theory to practice. The principle upon which its construction is based elicits the approval and admiration of experts in mechanics, it being entirely new and novel, as any one familiar with machinery and the laws of motion and hydraulics can see by a glance at the cut. It consists in the arrangement of a series of pistons within a cylinder disk, and radiating from the centre thereof, wherein, through suitable valve connections for admitting and discharging water, the pistons are caused to have successive reciprocating motions, which motions are so communicated to a ring which rests upon the ends of the pistons, and co-operatively acts with the latter, as to cause the periphery of the ring to present a continuous succession of curved inclines under a roller arm, which is attached to a fly-wheel and pulley located by the side of the disk, whereby said fly-wheel and pulley is given a continuous rotary motion in the plane of the movement of said pistons.

The advantages of this Motor are obvious at a glance :

IT IS A PISTON MOTOR,

Furnished with the best kind of hydraulic packings, which are durable, produce very little friction, and suffer no water to escape.

IT IS FAR MORE ECONOMICAL

Than any jet motor, or turbine wheel, inasmuch as it utilizes

Every drop of water that passes through it !

It has no DEAD CENTRES, from the fact that one-half of the pistons are acting constantly. This renders the action perfectly uniform and steady, without jar or noise, a most important advantage over any other hydraulic motor.

From the fact that the pistons are short, it can be run at a high rate of speed, and it can be made reversible. It yields a larger per cent. of power for the water used than any other motor.

For estimates, circulars and information, address

BOOK BINDERY

—AND—

BLANK BOOK MAKING.

THE SPRINGFIELD PRINTING COMPANY

Give special attention to binding Magazines, Newspapers, Library Books, Music, and all serials taken in numbers, for which they have special dies cut at great expense, for ornamentation.

Their styles of Binding are elegant, and

NOT SURPASSED BY ANY IN THE COUNTRY!

Their reputation for good BLANK BOOKS is as wide as the country, while their prices are as low as any house for the same quality of work.

Orders by mail as carefully and promptly attended to as if given in person.
